

# WJA Drain & Sewer With Duct Desilting – Practical Module

This training includes the WJA-accredited practical module for drain & sewer with additional content added by the Flowplant team to focus on high-pressure water jetting techniques used for desilting telecom ducts.

## Who Should Attend?

- **New jetting operatives** entering the telecoms or utility sectors
- **Telecoms contractors** involved in fibre rollout or duct maintenance
- Water jetting **supervisors** and equipment specifiers in telecom-related works
- **Health & safety managers** responsible for safe jetting operations on telecom sites
- **Permit issuers**, site engineers, and compliance personnel working around ducts and cabling systems

All delegates must have passed the WJA Safety Awareness course within the past three years.

## Course Details

### Duration:

1 day (approx. 08:30–16:30)

### Assessment:

Practical assessments & Digital tests

### Pre-course requirement:

WJA Safety Awareness

### Certification:

WJA Approved | City & Guilds  
Registered | Valid for 3 years

### Locations:

Flowplant Salisbury, Rotherham, or  
customer site (UK/international)

### Cost:

Available on request – Contact Us or  
Book Online - Scan the code below

## Course Objectives

This course provides detailed knowledge of the risks and practical procedures involved in water jetting for drain & sewer cleaning and duct desilting.

Delegates will cover:

- Structures and applications for drain and duct jetting
- The WJA Code of Practice and how it applies on-site
- Hose and nozzle selection, maintenance, and safety
- Equipment checks and managing reaction force
- Injury prevention, PPE / RPE requirements

**Optional Add-On:** Drain, Sewer & Gun Module  
Upgrade to the Drain, Sewer & Gun Module, which includes an additional 30 minutes of focused training on the safe operation of a water jetting gun.
